

Model: LoBact Midi. Air disinfection unit

Quantity: One

Purpose: The LoBact Midi unit has been designed to disinfect air in small enclosed spaces - cold stores, production facilities, public areas, in fact anywhere that requires infection and odour control. The unit is ceiling mounted and has an internal fan which draws air through the unit. Here, the air passes over high intensity UV-c emitters which act on airborne microbes such as bacteria, spores, viruses, moulds, yeast and fungi. The unit does not produce ozone, and has light guards to prevent UV-c light escaping. As a result, the LoBact Midi can be used in places where people are present.

- Features & Benefits:**
- Reduces spoilage of fresh produce and extends shelf life
 - Disinfects 24 hours a day
 - Is practically maintenance-free
 - Dispenses with the need for chemical cleaners which can be expensive and harmful to health and the environment
 - Has an excellent price/ benefit ratio
 - Simple to retrofit

Dimensions: 192(H) x 228(W) x 772.5(L) mm

Technical Data:	Weight	7kg
	Supply	230Vac/ 1 phase / 50Hz
	Power	240W
	UV-c emitter	2 x 95W with optional Teflon coating
	UV-c emitter life	9,000 hrs
	Finish	Grade 304 stainless steel
	Air flow	120 m ³ /hr

Accessories: Nil

Delivery: Stock item

Approvals: LoBact Midi complies with current CE requirements and EMC standards. Certificates are available on request.

Warranty: One year manufacturer's warranty for parts. Terms and conditions apply. .

Terms In accordance with our standard terms of business.

Maintenance LoBact Midi would recommend:

- Routine cleaning of the housing
